PROFILE

I am a Computer Information Systems graduate. Knowledge in database management, in-depth understanding of building responsive websites using front-end frameworks.

PROJECTS

- Cocktail Project

Fetch from the JSON api to display data using Reactjs. You can search for any cocktails, look for instructions and ingredients from there.

- Multipage E-Commerce

Built with Reactjs, keep track the cart in your localStorage.

- IP Address Tracker

Using IP Geolocation API and LeafletJS to track your location.

- Todo App

Made with EJS, and MongoDB for the backend.

- Pokemon Memory

Test your memory with 12 Pokemons fetched from an api.

- Tip Calculator

Calculator your tip in seconds.

- Full-stack Web Application(CIS 4375)

Worked in a team to develop a web application to serve company's shipping business using Rails framework, then design the application with Bootstrap. Hosted the web app using Heroku's platform.

- Database Creation(CIS 3343 and 3365)

Worked in a team to analyze a company's system and design a database.

WORK EXPERIENCE

SERVER SHIFT LEADER

Kura Revolving Sushi Bar

2018 - 2020

- Work with the POS system to help customers order, cancel, and checkout items on the tablet.
- Assisted with performance reviews to identify areas of improvement.
