I am a Computer Information Systems graduate. Knowledge in database management, in-depth understanding of building responsive websites using front-end frameworks.

PROJECTS

- Cocktails Project: Fetch from the JSON api to display data using Reactjs. You can search for any cocktails, look for instructions and ingredients from there.
- Multipage E-Commerce built with Reactjs, keep track the cart in your localstorage.
- Tip Calculator: Calculate the tip with a simple web app made with Reactjs.
- To Do List App: made with EJS, stored data on MongoDB and hosted on Heroku.
- IP Address Tracker: Using IP Geolocation API and LeafletJS.
- Memory Game to test your memory fetched from a Pokemon Api.
- Some simple games like tic-tac-toe, rock-paper-scissors.
- Full-Stack Web Application Website (CIS 4375): Worked in a team to develop a web application to serve company's shipping business using Rails framework, then design the application with Bootstrap. Hosted the web app using Heroku's platform.
- Database Creation(CIS 3343 and 3365): Worked in a team to analyze a company's system and design a database.

WORK EXPERIENCE

- Kura Revolving Sushi Bar - Server (2018-present)
- Khaitri Tutoring Center - Assistant (2015-2018)
- RMI Cargo - Transportation Manager (2017-2018)

EDUCATION

- University of Houston - Bachelor of Science in Computer Information Systems

Cumulative GPA: 3.46 May, 2020

- Responsive Web Design Certification - Freecodecamp
- Full-Stack Web Development Bootcamp - Udemy

TECHNICAL SKILLS

- Front-end: HTML/CSS, Javascript, React, jQuery, Bootstrap, SASS.
- Back-end: Nodejs, MongoDB, SQL, Ruby On Rails, Relational databases.
